

▶ ONLINE MAP LIBRARY

The right tools for the job: If you have been frustrated in the past with expensive and complicated software, you will love Progeos' easy to use intuitive solutions.

Create Custom Online Maps: Progeos allows historical maps and current data to be viewed, searched, and printed directly or to layered PDFs with only an internet browser and no expertise required.

Compare Maps Over Time: Users can overlay historical and topographic maps or aerial photos to see changes in a place over time.

Integrate with Current Systems: Progeos has the ability to connect to a number of existing data formats and software packages. Existing digital map collections can be easily integrated into the Progeos system.

Data Storage and Website Hosting: Secure, offsite data storage and website hosting allows users to expand storage capacity to reflect growing digital map collections. Users will have remote access to add new data, check server statistics and personalize website interfaces.

Use from Home: Using Progeos web-based mapping tools, students, faculty, staff, and community members can access valuable information 24/7.

Connect to Web Map Service: Data is provided to expert users through available tools in ArcGIS

▶ A BETTER SOLUTION

▶ MODULAR APPROACH

Use only what you need:

You only pay for the services you want to use. Services include:

- Online Training
- Coordinating Scanning
- Georeferencing Collections
- Website Hosting and Maintenance

All for an affordable monthly fee – with no hidden costs

▶ FEATURES

Powerful, Easy to Use Tools:

Progeos' online mapping tools allow for the preservation of rare and original map documents while expanding the usage and accessibility of your collection

Progeos provides easy to use online tools that allow users to view, search, identify, measure distance and area, and overlay georeferenced maps quickly, reducing staff time required to find detailed information

Progeos supports integrating maps with other GIS programs and online applications through web map services

Progeos can be used by students, faculty, and community members to provide new research opportunities, assist in land use planning and management, and aid environmental studies.

▶ BENEFITS

Affordable Web Technology

Progeos' affordable monthly fee with no hidden costs helps make transforming your map room into an online map collection a reality.

Flexible Tools

Progeos tools are completely web-based, increasing usage of your map library by allowing 24/7 access for users.

Progeos is quick and easy to implement, and your data can be updated at any time without interruptions to service.
